Lighting control is no longer simple light dimming. The variety of technologies from traditional incandescent to compact fluorescent to LED all require an understanding of the technologies and how to apply them. Rako supply a complete product set to cover these technologies—Going green has never been easier.

Wed 15th Feb 09h00 to 12h30

Sales—Product Overview. Wireless and Wired, New keypads and new Rako bridges.

Thur 16th Feb 09h00 to 15h00

Technical—Set up a complete wireless and wired system with bridge. Laptop preloaded with Rasoft software is essential.

Take advantage of the revolution in home automation. iLED have a complete automation solution with Bitwise automation controllers and iPad/Android GUI's. This course is so special we have presented it on 29th Feb—the only course on this date for the next 4 years.

With Bitwise you can automate a home or boardroom, control sprinklers and lights with an astronomic clock.....All from your iPad or Galaxy phone/tablet.

Wed 29th Feb 09h00 to 15h00

Session 1 Sales—09h00 to 10h30

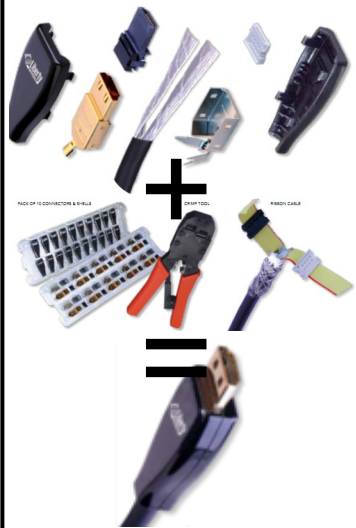

Product overview.

GUI designer Overview

Session2 Technical—10h30 to 15h00

Setting up a system with the new Speakercraft Driver.

Make your own HDMI cable

[Watch the Video](#)

HDMI is here to stay *and* becoming more technical by the month. The introduction of 3D now means that we are trying to squeeze even more data down the CAT6 cable. With Intelix we will show you how to reliably distribute HDMI. There are many areas of HDMI that can cause a system to fail—this course is a *MUST* for *successful* system designers and installers. We have new products to present as well—The Intelix HDbaseT—HDMI 1.4, 100baseT Ethernet, RS232 and IR control on a single Balun. With new TV's having internet capability you can now handle all of the cabling on 1xCAT6 as well as HDMI over CO-AX for hassle free retrofit.

Wed 7th March 09h00 to 12h30

Session 1 Sales and Technical—09h00 to 12h30

nirv™
